WORK EXPERIENCE

Full Stack Developer
Schibsted

06/2021 - 09/2021
As a summer intern at Schibsted I worked as a full stack developer on Swedens biggest news paper, Aftonbladet.

Achievements/Tasks
- Improved Klart.se widget integration and functionality on the front page.
- Took part in creating a minute of silence "take over" of the website.
- Created an internal tool (extension) for easier auto imports of packages in monorepos.

Full Stack Developer
Coeo events

10/2020 - Present
Coeo events is a startup company that provides a sustainable conference solution for visitors on site and remote.

Achievements/Tasks
- Implemented a solution for speakers at a conference to be able to get together in separate "rooms" which are then broadcasted live to the visitors.
- Researching and testing new technologies.
- Contributing with code both in the client and the server using React, Express and PostgreSQL.

Frontend Developer
Acino AB

06/2020 - 08/2020
As a consultant for Acino AB I worked on modernising 3LEDS managmentsystem for ISO certifications.

Achievements/Tasks
- Creating new features, functionality and capabilities using Vue / Vuex / Vuetify / TypeScript.
- Performing bug fixes and code reviews.
- Recommending solutions for a user-friendly interface with user experience in mind.

EDUCATION

M.Sc. Interaction Technology and Design
Umeå University

08/2017 - Present   *Umeå*

Bachelor of computer science
Umeå University

08/2017 - Present   *Umeå*

SKILLS

`Node` `React` `Vue` `Express` `GraphQL`
`React Native` `Flutter` `Unix` `C`
`Version Control` `AWS` `Python` `Java` `NoSQL`
`SQL` `Docker`

PERSONAL PROJECTS

Grannskapet
- Grannskapet is a full stack mobile application that connects local businesses with residents and creates a platform for people to connect and help each other.
- TypeScript, Node, Express, React Native, Expo, GraphQL, AWS, Docker, Heroku, Auth0.

monorepo-fix-imports
- monorepo-fix-import is a VSCode extension used for monolithic github-repos changing relative imports to package imports.
- Currently has over 50 users.
- TypeScript, Node.

EXTRACURRICULAR ACTIVITIES

CodeMill Hackathon winner
1st place at CodeMills hackathon. My friend and I created a "smart mirror" displaying current weather and bus information using React and Express.

Nordic Collegiate Programming Contest
Competed twice in the NCPC.

Acino Acadamey Ambassador (2018 - Present)

LANGUAGES

Swedish
Native or Bilingual Proficiency

English
Full Professional Proficiency

FUTURE ENDEAVOURS

`Scalable distributed systems` `DevOps`

`System architecture` `Cloud services`
